

## Integrating Intimate Partner Violence (1) Discussions, (2) Screenings, and (3) Interventions Into HIV Prevention Education and HIV Case Management Service Model

HIV prevention educators and case managers have several opportunities in the service model to engage clients in discussions about their risks for or experiences with intimate partner violence. Through an interactive training that includes case studies, and guidance on how to approach this sensitivity topic, you can enhance your skills and commitment to address potential or actual violence in the lives of women seeking HIV prevention education and care.

## DOMESTIC VIOLENCE AWARENESS, SCREEING, AND INTERVENTION TRAINING FOR HIV PREVENTION EDUCATORS AND HIV CASE MANAGER
